8. Frequently Asked Questions
The CIFAR Azrieli Global Scholars program includes three core components, each contributing toward the development of tomorrow’s research leaders:

1. PARTICIPATION IN A CIFAR RESEARCH PROGRAM - AN INTERDISCIPLINARY NETWORK OF FELLOWS
CIFAR Azrieli Global Scholars join a CIFAR research program for two years, interacting within a global network of internationally renowned researchers pursuing a fundamental research question. In the setting of twice-yearly program meetings, held in cities across Canada and in other parts of the world, CIFAR’s programs bridge disciplines, develop a common language, and regularly spark collaboration and inspiration that lead to new research directions and fields of inquiry.

All CIFAR Azrieli Global Scholars:
• Are provided $100,000 CAD in unrestricted research support over two years. These funds are intended to strengthen their capacity to conduct research. Possible uses include, but are not limited to: research projects, teaching release, trainee support, conference travel, etc.
• Are mentored by a Fellow in their CIFAR research program. Mentors help Global Scholars to integrate into their program, and may provide guidance and insights on areas of interest to the scholar (e.g., research directions, career development).
• May apply for time-limited seed funding to support collaboration across disciplines. CIFAR’s Collaborative Research Catalyst Funds motivate and support the launch of high-risk/high-reward interdisciplinary collaborations with other CIFAR Azrieli Global Scholars or CIFAR Fellows within or across research programs.

2. STRENGTHENING LEADERSHIP AND COMMUNICATION SKILLS
CIFAR Azrieli Global Scholars from across CIFAR’s research programs meet annually as a peer group to strengthen core skills in leadership and communication. Highly interactive, expert-led sessions provide tools, insights and awareness that are applicable to Scholars’ daily work and life.

CIFAR Azrieli Global Scholars participate in annual meetings which typically focus on two to three skill-building themes, for example:
• Strategic communications (such as influencing others, giving and receiving feedback, managing difficult conversations)
• Communicating to non-specialist audiences (e.g., op-eds, public talks)
• Strategic and creative thinking for problem-solving and decision-making
• Productivity & time management
• Grant-writing
• Identifying and overcoming imposter syndrome in oneself and others

Outside of annual meetings, CIFAR Azrieli Global Scholars also have access to additional training and development opportunities, provided through expert consultants, courses or conferences, according to their personal interests and needs.

3. INCREASING IMPACT WITHIN AND OUTSIDE OF ACADEMIA
Reflecting CIFAR Azrieli Global Scholars’ interest in achieving impact within academia and beyond, CIFAR supports and facilitates opportunities to put Scholars’ knowledge, expertise and skills training into action.

CIFAR is committed to sharing and mobilizing ideas with knowledge users across sectors, including policy-makers, business leaders and practitioners. Opportunities abound for Scholars to become involved in knowledge mobilization activities, reaching audiences that may benefit from learning about the latest research. CIFAR works with our research programs to help identify and support initiatives that engage thought leaders, policy-makers and practitioners in a way that will drive meaningful dialogue and mutual benefit.

Some examples of potential leadership opportunities include, but are not limited to:
• Leading a research project in collaboration with other Global Scholars or CIFAR Fellows
• Organizing a CIFAR Winter/Summer School
• Leading or contributing to a knowledge mobilization activity with other CIFAR Fellows
• Discussing research with stakeholders in academia, policy or business to understand different perspectives and influence change
• Writing and publishing an op-ed piece
• Delivering a public lecture

“The CIFAR Azrieli Global Scholars program has been a career-altering experience. The connections I have forged within my CIFAR program have expanded my interests, directed me towards exciting new questions and have fundamentally reshaped my research goals.”

KATHERINE MCAULIFFE
CIFAR Azrieli Global Scholar 2017-2019, Boston College
CIFAR is seeking to assemble a global cohort. There are no geographical restrictions on who may apply.

To be eligible for this program, you must:

- Hold a PhD (or equivalent).
- Be employed at an institution of higher education or research and be within the first five years of starting a full-time research position that includes responsibility for both conducting an independent research program and supervising/teaching graduate or postdoctoral trainees.
- Typically, you are an Assistant Professor (or the equivalent in other academic systems).
- Your position must be secure for the duration of the CIFAR Azrieli Global Scholar active term (July 1, 2020 to June 30, 2022).
- Your start date in this position must be no earlier than July 1, 2015. Note that special consideration may be given to those who have taken parental leave or those with exceptional circumstances.
- If you have a pending first full-time position that meets the criteria above and starts no later than July 1, 2020, you are eligible to apply. In this case, you must submit a copy of your letter of appointment with your application.

**NOTE:** Postdoctoral fellows are NOT eligible to apply to this program.

- Engage in research that complements or contributes to the themes and goals of an eligible CIFAR research program (see page 4).
- Demonstrate an outstanding level of research achievement and promise of future impact in your field, as evidenced by the quality of your publications, awards received, and statements by referees.
- Be interested in engaging across disciplines, as well as sectors beyond academia, to enrich and extend the impact of your research.
- Be available to attend a two-day in-person interview on June 18-19, 2020 in Toronto, Canada. The interview meeting includes individual and interactive group activities among shortlisted candidates for the eligible CIFAR research programs. In-person participation is required to ensure a fair and complete evaluation. Note that travel costs will be covered by CIFAR.
- You must have a valid passport, and if required, be able to obtain travel visas to attend the in-person interview meeting, and other CIFAR meetings in Canada and other countries around the world (2-4 times per year).
- Be fluent in spoken and written English.

If you have any questions regarding your eligibility, please contact us at global.scholars@cifar.ca.

**STATEMENT ON EQUITY, DIVERSITY AND INCLUSION**

CIFAR is committed to equity, diversity and inclusion. We recognize that bringing together individuals from multiple backgrounds, perspectives and experiences is integral to advancing excellence and increasing the impact of our organization. Ensuring that every person feels valued and welcome is vital to achieving our mission, and embodies our values of diversity, creativity, excellence, risk taking, respect and collaboration. CIFAR strives to foster the active participation and inclusion of all, including those from underrepresented groups in research, such as but not limited to women, members of racialized groups, Indigenous Peoples, persons with disabilities, members of sexual and gender minority groups — across geographic borders, disciplines, and career stage. In the pursuit of excellence, CIFAR embraces diverse ideas and perspectives, and proactively seeks to increase equity, diversity and inclusion within our community. CIFAR aims to create a culture that embodies these principles of equity, diversity and inclusion in all aspects of our work.
DURATION & VALUE

1. DURATION
CIFAR Azrieli Global Scholars are provided research funding and participate in a CIFAR research program over a two-year term. The term will begin on July 1, 2020 and end on June 30, 2022. At the end of the term, Scholars retain the title ‘CIFAR Azrieli Global Scholar’ and are encouraged to remain connected to CIFAR through CIFAR’s Next Generation Initiatives and research programs.

2. VALUE
Scholars receive $100,000 CAD in unrestricted research support. The funds are administered through their home institution and are intended to support their capacity to conduct research. Possible uses include, but are not limited to: research projects, teaching release, trainee support, conference travel, etc. CIFAR separately covers travel costs associated with attendance at CIFAR meetings.

EXPECTATIONS

During the two-year term, CIFAR expects CIFAR Azrieli Global Scholars to:

- **Attend CIFAR research program meetings** (usually 2-3 per year, depending on the program) in Canada and various locations around the world. While at meetings and where appropriate, we encourage Scholars to interact and collaborate with fellow program members on research areas of common interest to the program.

- **Attend CIFAR Azrieli Global Scholar annual meetings** (usually held in early- to mid-May) to participate in interactive, expert-led leadership and communications training and peer networking. We expect that each Scholar will attend two annual meetings.

- **Report** on successes and activities annually and where possible and appropriate, interact with CIFAR stakeholders and funders.

- **Acknowledge CIFAR** by using ‘CIFAR Azrieli Global Scholar’ in their professional signature and indicating CIFAR as an affiliation. Scholars should also acknowledge CIFAR as a funder in research publications, presentations and media interviews supported by this program’s funding.

“It has been a transformational opportunity to be part of the CIFAR Azrieli Global Scholars program. I have met many young researchers and created an amazing network that I can call on for the rest of my career.”

ALONA FYSHE
CIFAR Azrieli Global Scholar 2016-2018 (appointed as Fellow in CIFAR’s Learning in Machines & Brains program, 2019), University of Alberta
DEADLINE & HOW TO APPLY

1. APPLICATION DEADLINE
February 5, 2020 - 11:59 PM Pacific Time Zone (UTC -8)

2. APPLICATION PROCESS
CIFAR accepts CIFAR Azrieli Global Scholar applications annually. This year’s application cycle opens on December 5, 2019. Applications must be submitted online, using the application form provided at: cifar.ca/global-scholars.

As an applicant, your research is expected to complement or contribute to the themes and goals of an eligible CIFAR research program, listed below. If you wish to apply to more than one program, you must complete a separate application for each program.

In 2020, the CIFAR research programs eligible to accept applications are:

- Child & Brain Development
- Learning in Machines & Brains
- Quantum Information Science
- Quantum Materials

CIFAR’s programs are interdisciplinary, and the areas of research in each program are diverse. An objective of CIFAR’s programs is to stimulate new interdisciplinary collaborations among researchers in pursuit of new knowledge advances. We welcome applications that have the potential to bring a new perspective or approach into a research program.

We encourage you to explore the descriptions of these programs on our website, CIFAR.ca, along with the profiles and web pages of CIFAR Fellows and Advisors, for insights into the kinds of fields and projects represented in your program of interest.

3. APPLICATION COMPONENTS
As an applicant, you are required to submit the following information:

a) Summary Section
1. A summary of your reasons for applying to the CIFAR Azrieli Global Scholars program. In your response, please discuss how your intellectual contribution, leadership experience and aspirations align with both the goals of the Global Scholars program and the research program to which you are applying. (400 words maximum)

2. A brief statement about three areas of leadership and/or communications skills development that you would like to strengthen through your participation in the CIFAR Azrieli Global Scholars program. (100 words maximum)

3. A short description of your research interests using lay terms for a general audience and public use. (100 words maximum)

b) Detailed Section
1. A detailed discussion of your research background and proposed future directions, how this agenda would contribute to the themes and goals of the CIFAR research program, and how participating in the program would advance your research. Propose areas of potential research interaction and collaboration with Fellows and Advisors of the program. (1000 words maximum)

2. A discussion of how you have engaged with non-academic communities to extend the impact of your research. If you have not been active outside of academia, discuss the type of activities you would like to pursue. In your response, please identify expert communities who are most relevant to your academic work. (1000 words maximum)

3. An up-to-date CV, including publication list, uploaded as a .pdf document. Files must include the .pdf extension as part of the file name.

In addition:
1. You must arrange to have two to three letters of recommendation submitted to your online application. For details, please read the section on Letters of Reference.

2. If you have a pending first full-time position starting no later than July 1, 2020, you must upload a copy of your appointment letter to your application.

Your application MUST include the required recommendation letters, directly submitted by your referees, before it can be submitted as final. You will not be able to edit your application after submitting it. You are responsible for ensuring that your application is complete and successfully submitted by 11:59 PM Pacific Time Zone (UTC -8) on February 5, 2020.

“By far the most significant component of my tenure as a CIFAR Azrieli Global Scholar has been the opportunity to meet and engage with a broad and diverse community of exceptional scholars that push the boundaries of all areas of knowledge on a daily basis. It cannot be overstated how rare and unique this opportunity is.”

THOMAS VIDICK
CIFAR Azrieli Global Scholar 2017-2019 (appointed as Fellow in CIFAR’s Quantum Information Science program, 2019), California Institute of Technology
All applications must be submitted through the online application system. Applications received by other means will not be considered. Applications that are not complete or are not submitted as final after the deadline will not be reviewed.

If you have any questions, contact us at global.scholars@cifar.ca.

4. LETTERS OF REFERENCE

a) Who Should Provide Reference Letters?
You must arrange to have two to three letters of recommendation submitted to your application. One letter from a CIFAR program member (Fellow, Associate Fellow and Advisor) is permissible only if they were your direct supervisor. If a program member provides a letter, your application must include two additional letters from non-program members, for a total of three letters.

Referees are asked to comment on one or both of the following:

1. Scholarly achievements in terms of research excellence, productivity, creativity, breadth and interest in engaging across disciplines, and potential for future leadership in the field, compared to others at the same career stage.

2. Demonstrated leadership capacity within or outside of academic settings, as well as desire and potential to expand research impact by engaging with communities outside the academic sphere.

It is recommended that at least one letter be provided by an individual who is well-placed to understand your scholarly achievements and their impact in the field, e.g., a PhD or postdoctoral supervisor or a colleague. One letter may be (but is not required) from a leader outside the academic sphere.

b) How Do Referees Submit their Letters?

All letters of reference must be submitted through the online application system. Letters submitted by other means will not be accepted.

You will submit the names and e-mail addresses of your referees through the online application form. Upon doing so, your referees will receive an automated e-mail providing instructions on how to upload a confidential letter to your application. We recommend that you contact your referees in advance to confirm their availability to provide a letter, and then check that they have received the automated request after you submit their contact details.

Referees may only submit a letter after they receive the e-mail from CIFAR. If a referee does not receive or misplaces the e-mail with instructions, you can re-send the request. If you learn that one of your referees cannot provide a letter, you may replace them with a new referee and issue a new request. If a referee is unable to use the online system or does not use e-mail, contact global.scholars@cifar.ca for support on how to provide the letter.

Both you and your referee will receive an automated confirmation message when a reference letter has been uploaded successfully to your application. You may also track the status of your reference letters within your application form.

Two letters of reference MUST be submitted before 11:59 PM Pacific Time Zone (UTC -8) on February 5, 2020. If one of your letters is from a CIFAR program member (permissible only if they were your direct supervisor), then you must obtain two additional letters from non-program members, for a total of three letters. You are responsible for tracking the submission of reference letters and for following up with referees to ensure all letters are submitted on time.
CIFAR is strongly committed to equity, diversity and inclusion within our community and through the application review and selection process.

The total span of time from application deadline to final selection is about five months. Candidates invited to the in-person selection meeting will be contacted no later than April 6. The table below summarizes key dates for 2020.

The application review and selection process:

1. **Basic Eligibility**: CIFAR ensures all applications meet basic eligibility requirements.

2. **Application Review**: A sub-committee of CIFAR fellows and/or advisors is assembled for each eligible CIFAR research program. These committees review and assess the applicants to their program based on three criteria: i) research excellence, ii) potential to contribute to the program by adding new and diverse perspectives and approaches that build on or complement existing membership, and iii) leadership potential (both within and outside of academia). Each program selection committee reviews recommends up to 5 shortlisted candidates who will be invited to attend the in-person meeting.

3. **Final In-person Selection**: CIFAR invites shortlisted candidates to attend a two-day selection meeting in Toronto, Canada on June 18-19, 2020. This meeting consists of individual and interactive group activities involving candidates from across all participating research programs. Assessments will be conducted by an independent and diverse committee of academic researchers and experienced leaders in areas such as policy, communications and leadership. The Selection Committee evaluates candidates’ capacity, potential and desire to actively engage with peers across a full spectrum of disciplines and their potential to have a broader impact. This committee provides their scores and recommendations to CIFAR for the new cohort of CIFAR Azrieli Global Scholars.

**NOTE**: Shortlisted applicants must attend this meeting in-person to ensure a fair and complete evaluation. Candidates unable to attend the in-person meeting will not be considered.

*Candidates requiring visas to enter Canada are encouraged to research and assemble the required visa application documents before receiving an interview invitation to facilitate timely visa processing, should one become needed. If selected for the interview, CIFAR will provide a letter of invitation to support the visa application.
ADMINISTRATIVE GUIDELINES AND POLICIES

1. TERM
CIFAR Azrieli Global Scholars’ active term is two years, beginning in July 2020.
CIFAR Azrieli Global Scholars must hold a formal full-time research position at an institution of higher education or research, with responsibility for both conducting an independent research program and supervising/teaching graduate or postdoctoral trainees, for the full duration of their term.

2. ELIGIBLE USE OF FUNDS
CIFAR expects that the CIFAR Azrieli Global Scholar will use the $100,000 CAD in unrestricted research support to enhance his or her capacity to conduct research. Possible uses include, but are not limited to: research projects, teaching release, trainee support, conference travel, etc.

3. DISBURSEMENT OF FUNDS
Funds will be administered through the recipient’s institutional department. CIFAR will provide a financial letter to the Global Scholar’s department to arrange the transfer of funds. CIFAR requests that the funds be placed in a special account to be managed by the Scholar. The taxation treatment of these funds is the sole responsibility of the Scholar’s home institution. Please note that CIFAR does not support indirect costs.

Interaction costs — i.e., costs of attending CIFAR research program meetings, the CIFAR Azrieli Global Scholars annual meeting, and other pre-approved CIFAR-related travel — will be reimbursed by CIFAR through the completion of an expense claim form.

4. PARENTAL LEAVE POLICY
1. CIFAR normally expects that the home institution’s parental leave policy will apply, with salary funding for any leave coming from the home institution. Where applicable, the Scholar’s term will be extended by the length of the parental leave up to a maximum of one year.
2. Notice of parental leave should be given to CIFAR before the leave is anticipated to begin.

5. UNDERSTANDING LONGER-TERM IMPACT
CIFAR will continue to engage with Scholars to measure the longer-term impacts of the CIFAR Azrieli Global Scholars program. CIFAR will conduct exit surveys and follow-up surveys at intervals to track career progression, interaction patterns, and other outcomes.

“CIFAR is an incredible organization. The investment in CIFAR Azrieli Global Scholars is a powerful statement of commitment and value. The Global Scholars are an incredible team and I feel incredibly lucky to have been selected. I wish this could continue for many years looking forward.”

AMI CITRI
CIFAR Azrieli Global Scholar 2016-2018 (appointed as Fellow in CIFAR’s Child & Brain Development program, 2019), Hebrew University of Jerusalem
FREQUENTLY ASKED QUESTIONS

1. WHAT IS A CIFAR RESEARCH PROGRAM?
CIFAR’s global research programs connect many of the world’s leading researchers—across disciplines and borders—to shape new perspectives and spark ground-breaking ideas. A central feature of every CIFAR research program is the sustained interaction among its Fellows. Each program assembles a unique combination of top-tier researchers who contribute different disciplinary perspectives and research approaches to collectively tackle a complex challenge facing the world. Program members meet in-person one to three times per year over a five-year, renewable period. This sustained pattern of interaction engenders a “safe” environment where Fellows freely share and debate new ideas and research-in-progress. They become inspired to think creatively, disruptively and without limitations and to pursue innovative new collaborations with one another. Through this simple model, CIFAR’s programs are able to expand the boundaries of understanding in ways that would otherwise not be possible.

2. DOES MY RESEARCH NEED TO FIT WITH THE THEMES OF A CIFAR RESEARCH PROGRAM?
Yes. To be eligible as a CIFAR Azrieli Global Scholar, your research needs to complement or contribute to the themes and goals of one of the CIFAR research programs accepting applications in 2020. Eligible programs are listed on page 4.

CIFAR’s programs are interdisciplinary, and the areas of research in each program are diverse. An objective of CIFAR’s programs is to stimulate new interdisciplinary collaborations among researchers in pursuit of new knowledge advances. We welcome applications that have the potential to bring a new perspective or approach into a research program. We encourage you to explore the descriptions of our programs on our website, along with the profiles and web pages of CIFAR Fellows and Advisors, for insights into the kinds of fields and projects represented in your program of interest.

In your application, you are expected to demonstrate how your research could contribute to the program to which you are applying. Your application should clearly articulate how you envision your work contributing to or complementing your selected program, and how your research would benefit from engaging with the program. CIFAR strongly encourages applicants with diverse backgrounds and perspectives not presently represented in our programs.

3. THE APPLICATION DOESN’T SEEM TO ASK FOR A SPECIFIC RESEARCH PROJECT PROPOSAL. DID I UNDERSTAND CORRECTLY?
Yes. Different than a grant proposal for a specific project, we are seeking to understand how your research background to date, and your ideas for future research, would contribute to and benefit from interaction and collaboration with Fellows in your CIFAR research program of interest.

4. I HAVE APPLIED TO THIS PROGRAM IN THE PAST. MAY I APPLY AGAIN?
There is no restriction on the number of times you may apply to the program over the period of your eligibility.

5. ARE POSTDOCTORAL FELLOWS (OR EQUIVALENT) ELIGIBLE FOR THIS PROGRAM?
No, postdoctoral fellows may not apply to this program.

To be eligible, you must be employed at an institution of higher education or research and be within the first five years of starting a full-time research position that includes responsibility for both conducting an independent research program and supervising/teaching graduate or postdoctoral trainees. Typically, applicants will be an Assistant Professor (or the equivalent in other academic systems). See page 2 for full eligibility requirements. If you have questions, please contact: global.scholars@cifar.ca.

6. IF I DO NOT HAVE THE TITLE OF ASSISTANT PROFESSOR, AM I ELIGIBLE?
CIFAR recognizes that different academic systems around the world assign different titles to junior faculty positions. We welcome junior faculty from all over the world to apply. If you need assistance in determining your eligibility, please contact: global.scholars@cifar.ca.

7. I STARTED MY FIRST FULL-TIME RESEARCH POSITION WITH INDEPENDENT RESEARCH AND TEACHING RESPONSIBILITIES, MORE THAN FIVE YEARS AGO, BUT I SPENT PART OF THAT TIME ON PARENTAL/MEDICAL LEAVE. AM I ELIGIBLE TO APPLY?
To be eligible to apply, you will have started your first full-time research position with independent research and teaching responsibilities no earlier than July 1, 2015.

If you took a parental or medical leave after that date, your eligibility normally will be extended by the equivalent length of your leave.

You are required to identify the starting date of your first full-time research position in your application form. If this date is earlier than July 1, 2015, you must provide an explanation for CIFAR’s consideration. CIFAR reserves the right to make the final determination of your eligibility.
8. I HOLD A DOCTOR OF MEDICINE DEGREE (I.E., MD OR EQUIVALENT), BUT NOT A PHD. AM I ELIGIBLE TO APPLY?

No, CIFAR does not consider the Doctor of Medicine, or any equivalent medical degree, as a PhD-equivalent degree.

9. DOES IT MATTER WHICH COUNTRY I LIVE IN OR COME FROM TO BE ELIGIBLE?

No. CIFAR is seeking to develop a diverse and global cohort. There are no geographic restrictions on who may apply to this program.

10. WOULD I NEED TO RELOCATE FROM MY CURRENT INSTITUTION IF I AM SELECTED?

No. CIFAR Azrieli Global Scholars remain at their home institution and country throughout their two-year term. The research funding associated with the award is administered through the recipient’s institutional department.

11. IF I AM UNABLE TO ATTEND THE IN-PERSON INTERVIEW MEETING ON JUNE 18-19, 2020 IN TORONTO DUE TO A PRIOR COMMITMENT, SHOULD I APPLY?

No. Applicants unable to attend will not be considered. In-person participation is required to ensure a fair and complete evaluation. CIFAR will cover the associated travel costs.

12. WHAT COMMITMENTS ARE EXPECTED OF ME, IF I AM SELECTED AS A CIFAR AZRIELI GLOBAL SCHOLAR?

During your two-year term as a CIFAR Azrieli Global Scholar, CIFAR expects that you will:

- Attend the in-person interaction meetings of your designated CIFAR research program. Programs generally meet two to three times per year, depending on the program. Meetings are held in Canada and various other locations around the world. While at meetings and where appropriate, we encourage you to interact and collaborate with fellow program members on research areas of common interest to the program.
- Attend the annual meeting of CIFAR Azrieli Global Scholars, usually held in early- to mid-May, to take part in interactive, expert-led leadership development and communications training workshops, as well as peer networking. We expect you to attend two annual meetings.
- Report on your successes and activities annually, and where possible and appropriate, interact with CIFAR stakeholders and funders.
- Acknowledge CIFAR by using ‘CIFAR Azrieli Global Scholar’ in your professional signature and indicating CIFAR as an affiliation. You should also acknowledge CIFAR as a funder in research publications and presentations supported by this program’s funding.

CIFAR will work with you to accommodate individual exceptional circumstances. However, if over time these expectations are not adhered to, your term in the program may be reconsidered.

13. WHAT IS THE PURPOSE OF THE ANNUAL MEETING OF CIFAR AZRIELI GLOBAL SCHOLARS?

CIFAR Azrieli Global Scholars meet annually as a cohort for in-depth training focused on strengthening academic leadership and related skills. The annual meeting aims to build a community of early-career researchers and supports peer-to-peer sharing and collaboration.

Over three days, Scholars engage in interactive, expert-led workshops on skills relevant to their daily work and life. Sample themes include strategic communications (influencing others, giving and receiving feedback, managing difficult conversations), strategic and creative thinking for problem-solving and decision-making, communicating science to non-specialist audiences, and more. Invited guest speakers provide opportunities for cross-sector engagement, mentorship and enhanced learning. There is also time set aside to foster new collaborations and potential projects.

14. WHAT HAS BEEN THE SUCCESS RATE OF APPLICANTS?

Each eligible CIFAR program will accept up to three new CIFAR Azrieli Global Scholars.

- In 2016, we received 173 eligible applications from 27 countries for 9 research programs. Thirty-five candidates were invited to attend in-person interviews in Toronto, and a total of 18 Global Scholars were selected.
- In 2017, we received 445 eligible applications from 48 countries for 11 research programs. Thirty-three shortlisted candidates attended the interview meeting, of whom 15 were selected to become Global Scholars.
- In 2018, we received 402 eligible applications from 55 countries for 5 research programs. Twenty shortlisted candidates attended the interview meeting, of whom 12 were selected to become Global Scholars.
- In 2019, we received 217 eligible applications from 37 countries for 5 research programs. Twenty-five shortlisted candidates attended the interview meeting, of whom 14 were selected to become Global Scholars.
CIFAR is a Canadian-based global charitable organization that convenes extraordinary minds to address the most important questions facing science and humanity.
