

# AI & Extremist Content

# FUNDING BODY

- Collaboration with private companies to use AI through staged payments in exchange for services
- Capitalize on expertise and technical skill of private enterprise
- Government oversight to uphold and protect Canadians' digital rights and security

**BALSILLIE SCHOOL**  
OF INTERNATIONAL AFFAIRS

# POLICY MAKER

- Regulation can incentivize companies to address AI monitoring but it especially effects digital SMEs
- Responsible regulation establishes a narrow set of content criteria
- Regulation has the highest chance of legal challenge and media criticism
